- prevent adhere to the skin
- hydrophobicity which reduce the pain of dressing changes and avoid secondary damage

SILICONE FOAM DRESSING TRANSFER

DESCRIPTION

Alexer® silicone foam dressing-transfer is designed for a wide range of exuding wounds, and difficult-to-dress wounds. It can also be used as a protective layer on non-exuding wounds and/or large areas of fragile skin.

Applications

DESCRIPTION

- ✓ Minimizes pain during dressing changes
- ✓ Flexes for hard-to-dress areas
- ✓ Can be cut to shape
- ✓ Prevents maceration by moving fluid away
- ✓ Thin, soft, and comfortable to wear
